8 April 1981

MEMORANDUM FOR: Chief, Classification Review Division

THROUGH: Chief, Administration Branch

25X1 FROM:
Administration Branch

SUBJECT: 8 March 1981 Meeting with Larry Pickering
Regarding Various FRUS Volumes

25X1 1. The writer returned 15 FRUS manuscripts on Volume XIV, 1952-54, China and Japan, to Larry Pickering on 8 April 1981. These were documents which the State officer left with CRD for re-review during his visit on 31 March 1981 and which later processed.

2. Pickering requested that CRD also review 200 pages of manuscripts on FRUS Volume XI, 1952-54, Africa and South Asia (attached).

3. During the meeting Pickering asked about the status of FRUS Volume IV, 1952-54, American Republics. He was advised that the DO/IRO is yet conducting its additional review of the 54 pages of Guatemala material. Pickering mentioned that the State Historical Office is anxious to begin production of Volume IV and consequently the CDC Chief will "declassify" this Volume but will "embargo" the documents as the Government Printing Office prepares for publication. The Guatemala manuscripts, of course, would be presently exempted from Larry's "declassification" and will only be included when the DO/IRO completes its work.
